

Tiered Pricing Guide - Therapy with Helena

I provide tiered pricing options to account for different incomes, levels of privilege and financial backgrounds. The intention of this document is to provide clear information so you can do a self-assessment and place yourself in the tier that makes most sense for you in your life right now.

Please note, there is a limited number of reduced rate slots I can offer. If at the moment slots for the reduced pricing are full, I'd be happy to put you on my reduced rate waitlist and notify you when this payment option becomes available.

Notes on Using this Guide

- This is a guide, not a prescription. You know your financial reality better than anyone or any scale.
- There are lots of experiences and situations not covered here - place yourself as you best can, being honest and self-loving.
- It's ok to have resources! And it's ok not to have them. That's what using a scale is meant to account for.
